Freelancing Club, UAF (2025)

Web Coding 2.0

Freelancing Club, UAF (2026)

SUMMARY

Results-driven Frontend Web Developer with over 1 year of experience building and deploying high-performance, responsive web applications using React.js, JavaScript (ES6+), and modern CSS frameworks. Currently pursuing a BS in Software Engineering at UAF, combining strong computer science fundamentals with expertise in modular UI design, REST API integration, and performance optimization. Seeking opportunities to deliver impactful, user-focused digital solutions.

EDUCATION

University of Agriculture, Faisalabad

Oct 2024 – Expected 2028

Bachelor of Science in Software Engineering (CGPA: 3.78/4.00)

Key Coursework:

Data Structures & Algorithms | Database Management Systems | Object-Oriented Programming (OOP) | Software Engineering Principles | Visual Programming | Web Programming

EXPERIENCE

Frontend Developer Intern(Remote)

2026 – Present

CodeFusion

Lahore, Pakistan

- Assisting in building custom frontend components and integrating RESTful APIs using JavaScript, React.js, and Redux Toolkit.
- Fixing UI/UX bugs, refining mobile responsiveness, and participating in code reviews to maintain code quality.

Frontend Web Developer (Remote)

Aug 2025 – Aug 2026

CodeFusion

Lahore, Pakistan

- Developed, tested, and deployed responsive web interfaces using React.js, JavaScript (ES6+), Redux Toolkit, and modern CSS frameworks (Tailwind CSS, Material UI).
- Collaborated with cross-functional teams to translate UI/UX designs into modular, reusable, and performant React components.
- Optimized web application loading speed, user interaction flows, and cross-browser compatibility across multiple projects.

PROJECTS

Ashion E-Commerce Web Store | *React.js, CSS3*

Designed and developed **ayesha-ashion-ecommerce-store.vercel.app**, a modern front-end e-commerce web platform featuring product listing catalogs, interactive category filters, and smooth page routing.

- Implemented client-side shopping cart functionality with dynamic item quantity updates, real-time price calculations, and state persistence.
- Built modular, reusable React functional components and fully responsive custom CSS layouts for seamless browsing.

Mophy Admin Dashboard Application | *React.js, Context API, MUI, Tailwind CSS*

Engineered **mophy-payment-admin-dashboard.vercel.app**, an administrative dashboard interface using Material UI and Tailwind CSS for scalable component styling.

- Integrated interactive data visualization tables, navigation sidebars, and analytical card layouts for optimized UI/UX.
- Structured dynamic routing and responsive views tailored for complex data management tasks.

Real-Time Weather Application | *JavaScript (ES6+), REST API, HTML5, CSS3*

Developed an asynchronous web application at **ayesha-weather-forecast.vercel.app** fetching live meteorological data via OpenWeatherMap REST API using Fetch/Async-Await.

- Implemented dynamic search functionality, custom weather condition icons, and robust client-side error handling.
